Chelimella Sharath Kumar

LinkedIn: www.linkedin.com/in/sharathchelimella/ Email: sharathreddychellimela@gmail.com
GitHub: www.github.com/sharathchelimella Mobile: +91-9848995367

Skills

Languages: Python, Java, SQL
Frameworks: HTML and CSS, Scikit-learn (for ML),
Tools/Platforms: MySQL, Jupiter Notebook
Data Science: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Data Cleaning, Predictive Modeling
Soft Skills: Problem-Solving, Decision-Making, Time-Management

Internship

Unified Mentor Pvt Ltd — Data Analyst Intern | 0ct' 25 – Present

- Analyzed and processed large company datasets using Python (Pandas, NumPy),
- data cleaning, transformation, and exploratory data analysis (EDA) to uncover actionable insights.
- Developed and automated interactive Power BI dashboards and Python-based visualizations (Matplotlib, Seaborn), improving data accessibility and decision-making efficiency.
- Built and evaluated predictive models to identify key business trends, delivering data-driven reports that supported strategic recommendations and improved project accuracy.

Projects

Multi-Disease Prediction System (Machine Learning Project) Nov'25

- Built a Multi-Disease Prediction System using **Machine Learning algorithms** (Logistic Regression, Random Forest, SVM) to classify **Diabetes, Heart Disease, and Parkinson's Disease** from patient datasets.
- Performed data preprocessing, feature engineering, and model evaluation using Accuracy, Precision, Recall, F1-Score, and ROC-AUC to improve prediction performance.
- **Developed and deployed** a web interface for real-time disease prediction, integrating multiple optimized classification models into a scalable production-ready machine learning application.

Tech: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Machine Learning, Data Visualization.

Supply Chain and Inventory Dashboard (Data Analytics Project) Mar' 25

- Designed an interactive **Supply Chain and Inventory Dashboard** to track stock levels, supplier performance, order status, and demand trends for better business decision-making.
- Performed data cleaning, aggregation, and KPI analysis to identify stock shortages, overstock risks, and delivery delays using historical sales and inventory data.
- Implemented data visualizations such as inventory turnover, reorder alerts, demand forecasting trends, and supplier lead-time analysis to improve **overall operational** supply chain efficiency.

Tech: Power BI, Python, Pandas, SQL, Excel, Data Visualization, Dashboard Design.

Training

Java and MySQL: Application Development (Lovely Professional University) | Jul' 25

- Gained hands-on training through a Java Development Program, working with Java, JDBC, MySQL, and Swing to build end-to-end applications.
- Implemented database-integrated Java Swing applications using object-oriented design, structured exception handling, and efficient CRUD functionality.
- Strengthened full-stack integration capabilities by delivering real-world software solutions with improved code efficiency, reliability, and user-focused functionality.

Certificates

- SQL |*Hacker Rank* Nov' 25
- Introduction to Internet of Things | NPTEL Oct' 25
- Data Analytics Job Simulation | Deloitte Sep' 25
- Build Generative AI Apps and Solutions with No-Code Tools | Udemy Aug' 25

Achievements

Attained **5★ in SQL on HackerRank**, solving complex queries using joins, subqueries, and indexing. Jan'26
Secured **4★ in Java on HackerRank**, applying object-oriented programming and data structure concepts. Dec'25

Education

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.08*** *Aug'23 – Present*
Narayana Junior College Hyderabad, Telangana
Intermediate: ***Percentage: 95.4%*** *Mar' 21 -- Mar' 23*
Ekashila High School Warangal, Telangana
Matriculation: ***CGPA: 9.8*** *Mar'20 -- Mar' 21*
